RECEIVING BAY CATWALKS

Raise and lower moveable decks with air cylinders for a smooth even flow, with handrails to enhance your operator safety requirements. Decking comes in several types of material including fiberglass, stainless steel, and other slip resistant patterns.

EQUIPMENT ACCESS CATWALKS

Fit catwalks around new or existing equipment based on your plant or equipment design. All custom designed and fabricated.

STAIRS APPLICATIONS

From one small step to multi-level units, our stairs are made with stainless steel pipe hand-rail and channel support. Designed to mount to the floor or wall.

Custom and specialized design, fabrication and installation to meet your plant needs.
